TABLE OF CONTENTS

PAGE

# I. SPECIFICATIONS

SECTION 1 FOREWORD ..... 1

1. OSP7030M/730M Specifications ..... 4
2. Operation Transfer Chart ..... 13

# II. OPERATION

SECTION 1 OPERATION ..... 36

1. Basic Construction of Operation Panels ..... 36
2. Outline of Controls on Operation Panel ..... 37
   - 2-1. Operation Mode Selection Keys ..... 37
   - 2-2. Data Setting Mode Selection Keys ..... 37
   - 2-3. NC Status Indicating lamps ..... 38
   - 2-4. Other Controls on NC Operation Panel ..... 39
   - 2-5. Controls on Machine Operation Panel ..... 41
   - 2-6. Mode Selection Keys ..... 45

SECTION 2 POWER ON/OFF OPERATION ..... 49

1. Turning on the Power ..... 49
2. Turning off the Power ..... 50
3. Emergency Stop ..... 50

SECTION 3 MANUAL OPERATION FUNCTIONS ..... 51

1. Manual Axis Feed Functions ..... 51
   - 1-1. Manual Rapid Feed ..... 51
   - 1-2. Manual Cutting (Jog) Feed ..... 52
   - 1-3. Manual Pulse Feed ..... 53

PAGE

2. Spindle Operation ..... 54
2-1. Spindle Rotation ..... 54
2-2. Spindle Stop ..... 54
2-3. Spindle Release ..... 54
2-4. Spindle Orientation ..... 54
3. Indexing Swivel Head (Indexing Attachment) ..... 55
4. ATC ..... 56
4-1. ATC Operations ..... 56
4-1-1. Establishment of Correspondence between Toolpot Numbers and Tool Numbers by Manual Tool Change Operation ..... 56
4-1-2. Operation on ATC Operation Panel ..... 60
4-2. Manual Tool Change ..... 63
4-3. Manual Magazine Operation ..... 64
4-4. Manual Tool Change in Automatic Mode Operation ..... 66
5. APC ..... 67
5-1. APC Operation ..... 67
5-2. Automatic APC Operations ..... 69
5-3. Manual APC Operations ..... 69
6. Other Functions ..... 71

SECTION 4 MDI OPERATION ..... 72

1. Operation Procedure ..... 72
2. Automatic Mode Operation and MDI Mode Operation ..... 74
3. Subprogram Call in the MDI Mode Operation ..... 75

SECTION 5 AUTOMATIC MODE OPERATION ..... 76

1. Main Program Selection and Operation ..... 76
2. Schedule Program Selection and Operation ..... 84
2-1. Selection and Operation of Schedule Program ..... 84
3. Cycle Start and Slide Hold ..... 87
4. Resetting NC ..... 90
5. Sequence number Search and Mid-Start ..... 91

PAGE

6. Return Search and Sequence Restart ..... 93
6-1. Return Search ..... 93
6-2. Sequence Restart ..... 95
7. Sequence Stop (Option) ..... 96
8. Single Block ..... 98
9. Optional Block Skip ..... 98
10. Program Branch ..... 99
11. Optional Stop ..... 99
12. Mirror Image ..... 99
12-1. Mirror Image in the Work Coordinate System ..... 101
13. Override ..... 104
13-1. Feedrate Override ..... 104
13-1-1. Rapid Feedrate Override ..... 104
13-1-2. Cutting Feedrate Override ..... 104
13-2. Spindle Speed Override ..... 104
14. Manual Intervention During Automatic Operation and Restart ..... 105
15. Inserting Pulse Handle Operations ..... 107
16. Lock Functions ..... 107
16-1. Machine Lock ..... 107
16-2. Cancellation of Axis Command ..... 108
16-3. S, T, and M Function Lock ..... 108
17. Dry Run ..... 108
18. Library Program Registration ..... 109
19. Operation End Light (Option) ..... 111
20. Operation End Buzzer (Option) ..... 112
21. Error Light (Option) ..... 112
22. Auto Power Off (Option) ..... 112
23. Work Counter (Option) ..... 112
24. Hour Meter (Option) ..... 113
24-1. POWER ON TIME Hour Meter ..... 113
24-2. NC RUNNING TIME Hour Meter ..... 113
24-3. CUTTING TIME Hour Meter ..... 113
24-4. SPINDLE REVOLUTION TIME Hour Meter ..... 113

PAGE

SECTION 6 DISPLAY ON NC OPERATION PANEL ..... 114

1. Status Indicating Lamps ..... 114
2. Actual Position Display ..... 115
2-1. Actual Position Display ..... 115
2-2. RELATIVE ACT POSIT Screen ..... 119
3. Program Display ..... 126
4. Block Display ..... 129
5. ATC Tool Setting Data Display (Memory-Random ATC Specification) ..... 132
6. Message Display (Option) ..... 133
7. Check Display ..... 134
7-1. Display Screen ..... 136
7-1-1. NC Specification Codes ..... 136
7-1-2. NC Axis Data ..... 137
7-1-3. Diagnostics ..... 139
7-1-4. System Variables ..... 140
7-1-5. PLC Axis Data ..... 145
7-1-6. MCS Diagnostics ..... 146
8. Run Guide Display ..... 147

SECTION 7 HELP FUNCTION ..... 150

1. Summary ..... 150
2. Operation Procedure ..... 151
3. Operation At The Guidance Display Screen ..... 154
4. Operation At The Alarm History (Log) Display Screen ..... 155
5. Operation Examples ..... 156

**III. DATA OPERATION**

SECTION 1 DATA SETTING ..... 157

1. Mode Selection Keys ..... 157
2. Data Setting ..... 159

PAGE

3. Data Set Commands ..... 161
3-1. Commands for Data Setting ..... 161
3-1-1. SET Command ..... 161
3-1-2. ADD Command ..... 161
3-1-3. CAL Command ..... 162
3-2. Commands for Parameter Selection ..... 162
3-2-1. ITEM Command ..... 162
3-2-2. SEARCH Command ..... 163
3-2-3. AXIS CHANGE Command ..... 164
3-2-4. Cursor Keys ..... 164
3-2-5. Page Keys ..... 164
3-2-6. EXTEND Command ..... 165
3-3. Input/Output Commands for Peripherals ..... 166
3-3-1. READ Command ..... 166
3-3-2. PUNCH Command ..... 168
3-3-3. Verify ..... 171
3-3-4. Omitting the File Name and Device Name ..... 171
3-4. Other Commands ..... 172
3-4-1. Back Up Command ..... 172
4. Zero Set Commands ..... 173
4-1. Work Coordinate System Origin ..... 173
5. Tool Data Set Commands ..... 175
5-1. Tool Length Offset and Cutter Radius Compensation ..... 175
5-2. ATC Pot No./Tool No. Table ..... 176
5-2-1. Memory-random ATC Specification ..... 176
5-2-2. Fixed Address ATC Specifications ..... 179
5-2-3. Clearing/Setting Tool Numbers ..... 180
6. Parameter Setting ..... 181

SECTION 2 PROGRAM OPERATION ..... 182

1. List of Program Commands ..... 182
2. Date ..... 185
3. Directory ..... 186
4. File Transfer ..... 189
4-1. Read ..... 189
4-2. Punching Out Stored Program Data ..... 193

PAGE

4-3. Verifying Punched Out Programs ..... 197
4-3-1. Precautions for Tape Reading-in, Punching-out, and Verifying Operations ..... 201
4-4. Duplication of Stored Program ..... 205
4-5. Tape Reader Operation – Fast Forward Feed ..... 208
4-6. Tape Reader Operation – Rewind ..... 209
4-7. PIP Quit ..... 210
5. Program Editing ..... 211
5-1. Commands Used in the Program Edit Mode ..... 213
5-2. Fundamental Operations Necessary for Program Editing ..... 214
5-2-1. Readout of a Program File from the Memory ..... 214
5-2-2. Readout of a Program File from the Memory Using Wild Card ("*", "*.*") ..... 216
5-2-3. Cursor Operations ..... 217
5-2-4. Page Down ..... 221
5-2-5. Page Up ..... 221
5-3. One Line Insertion ..... 222
5-4. One Line Deletion ..... 223
5-5. One Character Insertion ..... 224
5-6. One Character Deletion ..... 225
5-7. Deletion ..... 226
5-8. One Line Erasing ..... 228
5-9. Find ..... 230
5-10. Change ..... 233
5-11. Copy, Move, and Extract ..... 235
5-11-1. Copy ..... 236
5-11-2. Move ..... 238
5-11-3. Extract ..... 240
5-12. Page Mode ..... 242
5-13. Insert Mode ..... 243
5-14. Power Failure/Shutdown during Editing ..... 244
5-14-1. In-editing Comment ..... 244
5-14-2. Alarm ..... 245
5-14-3. Not-guaranteed Area Indicating Symbol ..... 246
5-14-4. File Edit Starting Processing ..... 247
6. Multi-file Transfer (MPIP) ..... 248
6-1. Multi-file Read ..... 248
6-2. Multi-file Punch ..... 251
6-3. Multi-file Verify ..... 254
6-4. Quitting Multi-file Transfer ..... 258
6-5. Notes on Using Multi-file Transfer Sub Commands ..... 259

PAGE

7. List ..... 262
8. Data Arrangement in Memory ..... 266
9. Time ..... 267
10. Initializing ..... 268
11. Deletion ..... 269
12. Rename ..... 271
13. Free ..... 273
14. Protect ..... 275
15. Directory-selection-based File Operation Function ..... 277
15-1. File Processing ..... 277
15-1-1. Procedure for Executing File Processing ..... 277
15-1-2. Method for Creating Commands ..... 279
15-1-3. Command Execution ..... 282
15-1-4. Operation Transition ..... 283
15-2. Creating and Editing Commands ..... 284
15-2-1. Command Creation Screen ..... 284
15-2-2. Operation of the Edit Pointer ..... 285
15-2-3. Editing Modes ..... 286
15-2-4. Deleting Characters ..... 287
15-2-5. Notes on Creating and Editing Commands ..... 288
15-3. Use of the Command History ..... 290
15-4. Selecting Files From Directories (OSP Format) ..... 291
15-4-1. Procedure for Selecting Files from Directories ..... 291
15-4-2. Directory Selection Screen ..... 292
15-4-3. Cursor and Page Operations ..... 293
15-4-4. Function Key [F6] (RETURN), [F7] (CANCEL) and Cancel Key ..... 294
15-4-5. Effects of the Editing Modes ..... 295
15-4-6. Directory Display Method ..... 296
15-5. Selecting Files From Directories (MS-DOS Format) ..... 299
15-5-1. Procedure for Selecting Files from Directories ..... 299
15-5-2. Directory Selection Screen (for MS-DOS Format Devices) ..... 300
15-5-3. Changing the Directory ..... 301
15-5-4. Function Key [F6] (RETURN), [F7] (CANCEL) and Cancel Key ..... 302
15-5-5. Directory Display Method ..... 303

PAGE

SECTION 3 DATA INPUT/OUTPUT OPERATION ..... 304

1. NC Program Input/Output Function Using MS-DOS Format Floppy Disk ..... 304
1-1. Operation Overview ..... 304
1-2. Specifying MS-DOS File Names ..... 304
1-3. Command List ..... 305
1-4. DIR (directory) ..... 307
1-5. COPY (copying) ..... 308
1-6. RENAME (renaming) ..... 311
1-7. DELETE (delete) ..... 313
1-8. FREE (free) ..... 314
1-9. PROTECT (protect) ..... 316
1-10. Special Input/Output Function For Work Program Files ..... 318
1-10-1. Program Input ..... 318
1-10-2. Program output ..... 319
1-11. Quitting MS-DOS ..... 321
1-12. Character Codes ..... 322
1-13. Miscellaneous Cautions ..... 322
2. OSP Format I/O Function ..... 324
2-1. Operation Overview ..... 324
2-2. Operation Commands ..... 325
2-3. Types of Floppy Disk ..... 326
3. Tape Punch Interface ..... 327
3-1. Operation Commands ..... 327
3-2. Parameter Settings ..... 329
3-3. Tape Format ..... 337
3-3-1. Input Format ..... 337
3-3-2. Output Format ..... 338
3-3-3. EIA Special Codes ..... 339
3-4. Specifications ..... 340
3-4-1. RS232C Interface ..... 340
3-5. Connection to Peripheral Devices ..... 343
3-5-1. BTR System (No DC Codes) ..... 343
3-5-2. DC Code Control ..... 346
3-5-3. DC Code Control TYPE2 ..... 349
3-5-4. Slave Station Function ..... 352

PAGE

# IV. PARAMETER

SECTION 1 KINDS OF PARAMETERS ..... 356

SECTION 2 PARAMETER TABLE BY FUNCTION ..... 357

SECTION 3 DESCRIPTION OF PARAMETER AND SETTING PROCEDURE .... 361

1. Display Select Screen (Selection for Display and Not-display of Parameter Setting Screens) ..... 364
2. Common Variables ..... 366
3. User Parameters ..... 368
4. G/M Code Macro ..... 370
5. NC Optional Parameter (Long Word) ..... 371
6. NC Optional Parameter (Word) ..... 378
7. NC Optional Parameter (Bit) ..... 388
8. Unit Systems for Programming ..... 411
9. NC Optional Parameter RS232C (CN0:) ..... 413
10. NC Optional Parameter SPINDLE (OKUMA VAC) ..... 416
11. System Parameter ..... 419
12. Pitch Error Compensation ..... 425
13. Machine Axis Parameter ..... 428
14. Machine User Parameters ..... 435
    - 14-1. Coolant Parameters ..... 435
    - 14-2. Power Save/Shutdown Parameters ..... 437
    - 14-3. Timers ..... 438
    - 14-4. Indicating Lamp Parameters ..... 438
    - 14-5. Buzzer Parameters ..... 439
    - 14-6. Spindle ..... 440
    - 14-7. ATC/Tool Exchange ..... 441
    - 14-8. Magazine Parameters ..... 441
    - 14-9. External M Command Parameters ..... 442
    - 14-10. External Hour Meter Parameters ..... 442

PAGE

14-11. Door Interlock Parameters ..... 443
14-12. Axis Lubrication Parameters ..... 443
14-13. System Check Mode ..... 444
14-14. External Program Selection Parameters ..... 444
14-15. Chuck ..... 444
15. Machine System Parameters ..... 454
15-1. Spindle Parameters ..... 454
15-2. ATC Parameters ..... 455
15-3. APC Parameters ..... 455
15-4. AAC Parameters ..... 455
15-5. Home Position Parameters ..... 456
15-6. MCS Parameters ..... 457
15-7. Power Sequence Parameters ..... 457
15-8. Axis Exchange Parameters ..... 457
15-9. ATC Arm Parameters ..... 458
15-10. ATC Arm Torque Limiter Parameters ..... 458

**V. APPENDIX**

SECTION 1 APPENDED FIGURES ..... 464

1. NC Operation Panel ..... 464
2. Machine Operation Panel ..... 465
3. Option Panel ..... 466
4. Manual Tool Change Operation Panel for OSP ..... 467
4-1. Manual Tool Change Operation Panel (Vertical Machining Centers) ..... 467
4-2. Manual Tool Change Operation Panel (Horizontal Machining Centers) ..... 467
4-3. Manual Tool Change Operation Panel (MDB-A/B, MCV-A/B) ..... 468
4-4. Manual Tool Change Operation Panel (MDB-A/B, MCV-A/B) ..... 468
5. Magazine Manual Operation Panel ..... 469
5-1. Magazine Manual Operation Panel (Vertical Machining Centers) ..... 469
5-2. Magazine Manual Operation Panel (Horizontal Machining Centers) ..... 470
5-3. Magazine Manual Operation Panel (Double Column) ..... 471
6. Parallel Type 2-Pallet APC Operation Panel ..... 472
6-1. Parallel Type 2-Pallet APC Operation Panel (Vertical Machining Centers) ..... 472
6-2. Parallel Type 2-Pallet APC Operation Panel (Horizontal Machining Centers) ..... 472
7. Rotary Type 2-Pallet APC Operation Panel ..... 473

PAGE

8. Attachment Operation Panel ..... 474

SECTION 2 TABLES OF COMMAND CODES ..... 475

1. List of G Codes ..... 475
2. List of Mnemonic Codes ..... 480
3. List of M Codes ..... 481
